

## Banner Good Samaritan Medical Center Healing Garden

**FLOOR**  
a s s o c i a t e s

This project was a collaboration between Floor & Ten Eyck, The Orcutt/Winslow Partnership and Joan Baron, Artist. The challenge was to take an existing concrete courtyard (all over-structure) and turn it into a multi-sensory garden. Taking a cue from the adjacent curvilinear concrete hospital tower, sinuous concrete walls were created at seat height to add the dimension of human scale. These form the terraced garden that is visible from the patients' rooms and the lobby of the hospital. The native, medicinal plants and the water feature that slip through the garden symbolize the different stages of life.

### Client

Banner Health Systems

### Location

Phoenix, Arizona

### Design Team

Orcutt/Winslow Partnership - 1998

Floor & Ten Eyck - 1998

Joan Baron, Artist - 1998

Floor Associates - 2005 renovation

### Size

20,000 Sq Ft

### Services

Landscape Architecture

Hardscape Design

Water Feature Design

Artist Design Coordination

### Budget

\$75,000 - 1998

\$60,000 - 2005

### Completion

October 1996

November 2005 Renovation
